

WELCOME TO THE PTSI
ONLINE LEARNING SYSTEM

WELCOME TO THE PTSI ONLINE LEARNING SYSTEM:

We are excited to have you on board with the next generation of the online learning system. The new system is designed to streamline your online learning experiences and provide you with new functionality today, as well as an advanced platform for features that are currently under development.

The main bullet points of this transition from the *electrical training ALLIANCE* Blended Learning System to the systems of PTSI are:

- You will now have access to a modernized Learning Management System (LMS), which will not necessarily be evident on the login screen because it still looks the same, but after you log in, you will see the new PTSI Online Learning System.
- A 'My Records' system is now available that allows you to view and share course completions and qualifications as well as manage and share documents.
- A PTSI mobile app supports access to the My Records system as well as other information.
- And, there is a strong roadmap of tools, which are currently nearing completion and will be added to the system soon.

A brief video was put together, spotlighting the high-level changes and new features. The video can be viewed here: [PTSI Online Learning System Introduction](#)

PTSI ONLINE LEARNING SYSTEM REVIEW COURSE:

You have also been enrolled in the PTSI Online Learning System Review course. This course is the first place you should go to comprehensively learn about the changes in the system, including the My Records feature and the PTSI Mobile App.

Note: Enrolling you into the PTSI Online Learning System Review course can take up to one hour once your training location is switched over to the new system. If the course is not displayed in your My Courses list, you may have to wait just a bit. Also, there is a new 'View All' tab in the My Courses page. Be sure to check there for the PTSI Online Learning System Review course as well.

SO, LET'S RECAP:

1. Watch the brief video that explains the new system: [PTSI Online Learning System Introduction](#)

2. Access the PTSI Online Learning System Review course

3. Download the PTSI Mobile App

4. Enjoy the new features and functionality of the PTSI Online Learning System.

Thanks!
